2012 Annual Report

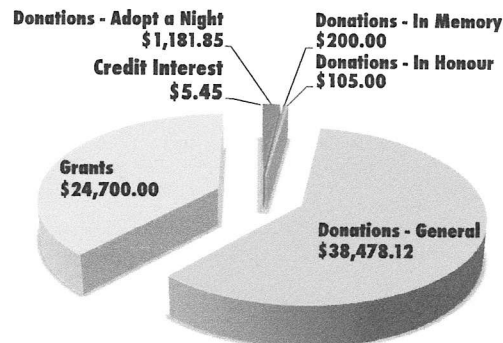

It is with a sense of humbleness and pride to have been part of a dedicated team who established Today House, a not for profit emergency, overnight shelter in Steinbach. This grass roots committee worked diligently and cared immensely to be preeminent leaders in our community in responding to the needs of the less fortunate.

As a committee we quickly realized that there was a vast network of loyal volunteers, donors and community supporters who believed in our enterprising, strategic and responsive endeavour in caring for the homeless in the community. We are very thankful for all the gifts of time, goods and funds so many mindful people and organizations gave the shelter and continue to offer us. This endorsement of support has encouraged Today House's Board of Directors immeasurably.

Today House's Board of Directors continues with full commitment to remain a compassionate conduit of change for the marginalized in our community. Our hope is to carry on working in unity with a collaborating community towards one vision – to plant hope and change in the lives of those we serve.

Simone Penner - Chair
